SKYDOME®

The Original CIRCULAR Skydome®

The Skydome® skylight remains the number one choice when it comes to delivering natural light to any area of the home. Installing a Skydome® provides the freedom to design any room away from the exterior walls with the ease of knowing that you can provide natural light and ventilation in a cost and energy efficient way.

Tested to Australian Standards (AS4285), the Skydome® skylight provides protection from harmful UV rays (99% UV Skyguard) and are guaranteed not to leak.

Designed with an emphasis on Australian construction methodology and the harsh Australian climate, the Skydome® skylight system will make your rooms come alive!

SKYDOME®

The Original Circular Skydome®

The original Circular Skydome® adds that extra dimension to your project like no other skylight. Designed specifically to meet your creative desires, this skylight is truly like no other.

Engineered to allow for a one piece unit with an opening of up to 2400 mm in diameter, this makes it an extremely cost effective way to bring natural light into internal spaces with a keen sense for aesthetics.

Installing a Circular Skydome® provides the flexibility to design any room away from the exterior walls with adequate natural light and energy efficiency.

Skydome has been established since 1976 and is proudly Australian owned; your guarantee of quality workmanship and materials.
